# About *The Octagon* and MGOC...

The M.G. Owners Club, formed in 1957, is the Northern California Centre of the M.G. Car Club, formed in England in 1930. The Peninsula T Register was formed in 1973 and is now an informal sub-group of the MGOC. We receive a copy of the MGCC's *Safety Fast*, available to members on loan from the corresponding secretary. The Club is also associated with the North American MGB Register, the North American MGA Register, and the New England MG T Register. The MGOC holds a business meeting on the second Thursday of each month at an event known as the "Natter and Noggin" in the style of English clubs. *The Octagon*, our newsletter, is published monthly by the M.G. Owners Club. Opinions expressed in *The Octagon* are not necessarily those of the MGOC, its members, or Board of Directors.

# From the Editor...

*“out with old, in with the new, unless, of course, its your MG ...”*

Happy 2015! “Lose weight,” “Save money,” “Spend more time with family and friends,” “enjoy life more,” and “learn new things.” Sound familiar. Well, these are amongst the most popular New Year’s resolutions, people make every year. In an attempt to make the 2015 new year better, its “out with the old, in with the new,” unless, of course, its your **MG**.

## Lower the Calories / Improve your Mileage

In 2015, slow down. Driving 60 mph instead of 70 mph will save you 2-4 miles per gallon over the duration of your trip. Take it easy on the throttle. Don’t accelerate quickly or brake hard. Coasting to a stop will save fuel and save wear and tear on your brakes. Check tire pressure. Making sure your tires are at the recommended pressure can increase fuel economy by as much as 3.3%. Breath easy. Replacing your air filter can increase your fuel economy by 4.1%. Lighten up. Clean out your trunk of all the “spare” parts (and risk being stranded during a breakdown). The less weight in you car, the better the fuel economy. Cool down. Gas up on cool mornings. Fuel is denser when it is cold. Gas pumps measure by volume, so you get more gas for your buck, when it is cold.

## Give your Wallet a Break

In 2015, although many people create an MG automotive budget (separate from you other cars, unless your MG is your daily driver, then your already on your way to big savings), try DIY projects. The MGOC would love to help you with your project. We probably have enough MG-Years of experience, amongst us, to walk you through the repair, or make a decent professional recommendation.

## Friends and Family Plan

In 2015, forget ATT&T, Verizon or Sprint. Join the MGOC “Friends and Family Plan,” and receive unlimited minutes to share with your MGOC friends and family.

## Celebrate Life

In 2015, making room in your life for drives with family and MGOC friends is about as enjoyable as it gets. Invite a friend to ride along “Shotgun” to an MG event and MGOC will buy you and your friend’s meal.

## MGOC Adult Continuing Education Plan

In 2015, tech sessions are a good way earn MGOC Adult Continuing Education credits. Although, the certifications may not be recognized by any current institutions, the personal value and experience are PRICELESS.

# President's Ponderings...

Happy New Year Fellow MG Enthusiasts!

I hope your holidays were nice and you were able to get some good family and rest time in. I would like to especially thank Elaine Chan and Mike Jacobsen for hosting our Holiday Tea. The chow mein was great! As your newly elected president, I'm really looking forward to 2015 which I'm sure is going to be jam packed with MG Related events.

First we have the Planning Session and Annual Brunch in January followed by Tech sessions and Tours in the Spring and culminating with The Dixon Car Show, MGs by the Bay and GOF West in May and June. Then the summer begins and who knows what great adventures we'll have in our LBCs. Look for e-mail blasts and our new Facebook and recently redesigned website for up to date information.

Safety fast!  
Steve Kellogg

And Speaking of *Safety Fast*, below are some wet weather driving tips I took from the AAA site. As Sergeant Phil Esterhaus used to say, "Let's be careful out there!"

Spring and summer showers may mean flowers, but wet pavement contributes to nearly 1.2 million traffic crashes each year.

## **Safety starts before you drive, and your goal should be to see and be seen.**

Replace windshield wiper inserts that leave streaks or don't clear the glass in a single swipe.

Make sure all headlights, taillights, brake lights and turn signals are properly functioning so other drivers will see you during downpours.

## **Slow Down and Leave Room**

Slowing down during wet weather driving can be critical to reducing a car's chance of hydroplaning, when the tires rise up on a film of water.

With as little as 1/12 inch of water on the road, tires have to displace a gallon of water per second to keep the rubber meeting the road.

Drivers should reduce their speed to correspond to the amount of water on the roadway.

At speeds as low as 35 mph, new tires can still lose some contact with the roadway.

To reduce chances of hydroplaning, drivers should slow down, avoid hard braking or turning sharply and drive in the tracks of the vehicle ahead of you.

Also, it's important for motorists to allow ample stopping distance between cars by increasing the following distance of the vehicle in front of them and beginning to slow down to stop for intersections, turns and other traffic early.

## **Responding to a Skid**

Even careful drivers can experience skids. If a driver feels their car begin to skid, it's important to not panic and follow these basic steps:

- \* Continue to look and steer in the direction in which the driver wants the car to go.
- \* Avoid slamming on the brakes as this will further upset the vehicle's balance and make it harder to control.

If you feel the car begin to skid, continue to look and steer in the direction you want the car to go. Don't panic, and avoid slamming on the brakes to maintain control.

Overall you want to be extra cautious in wet weather. Slow down, avoid hard braking or turning sharply and allow ample stopping distance between you and the cars in front of you. Also, do these things one-at-a-time. Brake, then turn, then accelerate.

## **Proper tire tread depth and Inflation**

Check tread depth with a quarter inserted upside down into the tire groove. If you can see above Washington's head, start shopping for new tires. Check each tire's pressure, including the spare, at least once a month... and be sure to check the pressure when the tires are cold.

# Meet our New Secretary

*Jing Chai*

**By Samantha Lee**

**SAMANTHA LEE:** Are you excited about being our new Secretary?

**JING CHAI:** I'm not really sure, I was quite surprised that I got nominated at all, considering I only been a member of MGOC since 2013.

**SL:** Have you ever been a Secretary Before?

**JC:** No, I haven't.

**SL:** What kind of events do you think we will have this year?

**JC:** We should have more driving tours around the Bay Area.

**SL:** What is your favorite MGOC event?

**JC:** Any kind of driving tour.

**SL:** Where did you grow up?

**JC:** Alameda and San Jose.

**SL:** How did you become interested in MG Cars?

**JC:** I wanted a RWD sporty car since high school and when I found a MG Midget on Craigslist last year I thought I'd get started with a MG.

**SL:** What MG do you drive?

**JC:** 1970 MG Midget

**SL:** How long have you owned it?

**JC:** Since February of 2013.

**SL:** What was the last repair you did on it?

**JC:** I replaced the folding top.

**SL:** What is the next repair you plan to do on it?

**JC:** I need to get the alternator checked up and replace the steering rack.

**SL:** What is your favorite thing about owning your MG?

**JC:** It's such a blast to drive especially on twisty roads! Also I feel like I'm driving fast even at 50 mph.

**SL:** What is your least favorite thing about owning your MG?

**JC:** There's always a bit of worry something might go wrong when driving it.

**SL:** That's OK, my friend Craig Kuenzinger also has a Midget. If you want, I can talk to him for you. He knows a lot. We call him the Professor.

**SL:** Have you ever had a breakdown? Tell us about it.

**JC:** Yes, the battery died last week going up on Page Mill Rd and I had to get towed back home.

**SL:** That's great, thanks for the interview.

# Meet our New Vice-President

*Andy Preston*

**By Samantha Lee**

**SAMANTHA LEE:** Are you excited about being our new Vice-President?

**ANDY PRESTON:** Yes, I am, and I'm looking forward to working with Steve. I think it's going to be an interesting year with lots of events. We just have to find ways to have more of our members participate.

**SL:** Have you ever been a Vice-President Before?

**AP:** No I haven't, and I think this is the first time that anyone in the North Bay has held this position. With current technology and remote access to meeting I think that anyone anywhere can participate more.

**SL:** What kind of events do you think we will have this year?

**AP:** I'd like to see more social events where spouses can participate more. The tech sessions are great for the guys (and I'm on of them) but it would be great to see more women enjoying the club.

**SL:** What is your favorite MGOC event?

**AP:** I like *MG's by the Bay* which is turning into one of the best attended events in the bay area, but also like the Annual Brunch and Holiday Tea that gives you more time to chat and catch up with members that you haven't seen for a while.

**SL:** Where did you grow up?

**AP:** I grew up in Birmingham, England which was the centre of the car industry in the 50s, 60s and 70s. The BMC (Austin, Morris, Wolsey, and Riley) plant and Rootes (Hillman, Humber, Singer and Sunbeam) plant were both located in Birmingham. The Rover and Land Rover plant was in Solihull 3 miles from my house, and the Jaguar plant in Coventry just 20 miles away. Even though MG became a part of BMC in 1952 they still manufactured MGs in Abingdon, Oxfordshire up to 1980.

**SL:** How did you become interested in MG Cars?

**AP:** My first sports car in England was a 67 Austin Healey Sprite (AKA the MG Midget which was only badge engineering by BMC). The car was fabulous and easy to drive and maintain. After that I owned a MGB GT which was a really practical every day driver.

**SL:** What MG do you drive?

**AP:** Presently, Marla and I own 4 MGs. A 1955 MG TF, 1960 MGA Coupe, 1967 MGB Roadster, 1974 MGB GT. We drive them all the time and drive them everywhere.

**SL:** How long have you owned it?

**AP:** Our first MG was the 1974 B GT which we bought for \$600 when Joe Montana was quarterback for the 49ers.

**SL:** You mean, like, during the Gold Rush in 1849? Never mind, Scratch that ...

**SL:** What was the last repair you did on it?

**AP:** The last major repair was on the 67 MGB Roadster when I rebuilt the engine; the reason we won the BSPA in 2014 was.

**SL:** What is the next repair you plan to do on it?

**AP:** I won't know that until one of them breaks down.

**SL:** That's what all BSPA'ers say ...

**SL:** What is your favorite thing about owning your MG?

**AP:** Apart from the fun of driving them is being a member of MGOC and all the friends we've made and places we've been to driving our cars.

**SL:** What is your least favorite thing about owning your MG?

**AP:** Running out of garage space and not being able to enjoy more of these wonderful cars.

**SL:** Well, in another 5 years, when I turn 18, I know of a good place where you can keep one ...

**SL:** Have you ever had a breakdown? Tell us about it.

**AP:** Unfortunately we've endured several "Rides of Shame" and at least one with each MG. Our longest one was 207 miles on the back of a flat bed on our way back from MG 2013 in Corvallis, Oregon. We were using a lot of oil and finally on our way home lost compression in 2 cylinders. We limped 50 miles to Fortuna where we called AAA and thankfully we have the 200 mile tow package so only had to pay for the 7 miles. The engine had to be completely rebuilt.

**SL:** That's great, let's hear it for AAA! Thanks for the interview.

- January 24 – MGOC Annual Brunch at His Lordship's in Berkeley

## OLD BUSINESS

Mike Jacobsen proposed that the MGOC co-sponsor the NAMGAR (National MGA Register) annual Get-Together in 2017. The event is planned for late June, 2017, in San Luis Obispo. There are several reasons for MGOC to support GT-42, beyond the obvious advantages of having a national event in our area. NAMGAR wants to have a GT on the west coast, and they have supported the MGOC for several years with both insurance and financial aid. Since we have two local clubs hosting the event, the work required and the financial risks are shared – neither club is carrying the whole load. This may be the easiest way we'll ever have to host a national event.

A motion to co-sponsor the GT-42 was made by Mike Jacobsen and seconded by Craig Kuenzinger. Passed unanimously.

## NEW BUSINESS

### Election results

- President – Steve Kellogg
- Vice President – Andy Preston
- Treasurer – Marla Preston
- Secretary – Jing Chai

Thank you Mike Jacobsen for collecting and tabulating the results.

Andy Preston told the group that for the GOF in Rohnert Park next year, Lawrie Alexander asked for folks to create a presentation for people that don't attend the tech sessions, or to present a tech session. If interested, contact Andy.

## Cars for Sale:

**1949 MGTC** has a rebuilt engine with very few miles on it. The car has also been rewired with a new wiring harness. The car has been painted to the original color. The car has a new top and side curtains and original tool kit. The wood in the doors is in good condition. The compression in the engine is about 120 in each cylinder. I have been told that if it is driven more that number will come up higher. As to the value of the car depending on who you talk to, the price range is from \$25,000 to \$35,000. I will accept \$25,000 or more. Contact Member Larry Matthews at 415-999-2362 [Posted 08/13]

**1964-65 MGB Roadster** is a project car. Up on blocks for 8 years and in DNO status, it doesn't look bad but does have issues. Other photos are available and we welcome inquiries. In Livermore CA. Contact Wes at [WESNEL@ATT.NET](mailto:WESNEL@ATT.NET) [Posted 06/13]

**1967 MGB GT.** This is pretty much an all original, (except for the first two years) a one owner car. Purchased new in San Rafael, CA, from the local British Car Dealer. I purchased this car about a year ago, and have receipts for about \$6,500 of various items repaired by my mechanic, including a rebuilt transmission. The car had not been driven much for the past several years. I bought the car as a gift for my Brother, but, due to his extremely bad tennis hips, he has extreme difficulty getting in and out. Price \$8,375.00\*

**1974 MGB GT** Chrome Bumper California car restored 10 years ago and always garaged since. Body is a modified Black Tulip (very deep purple) color with navy blue interior. It has been customized to create a "late model" car look with chrome pieces powder-coated black except for the bumpers. Car features custom wheels with low profile oversized tires. (205/45V16).

Engine and drive train are stock. Engine has less than 10,000 miles since rebuild; head was just done this year by On the Road Again with new valves and guides. Carbs rebuilt by British Sports Car center with new throttle shafts. Engine runs well with strong acceleration.

Restoration included many new parts and pieces. All quarter panels were replaced and rust removed from internal structural panels. new bumpers front and rear; door and window seals replaced; Brakes rebuilt with new master cylinder, wheel cylinders and calipers; new navy blue interior panels, headliner, carpets, dashboard, wood steering wheel, windshield, and seatbelts. Hatchback and Hood lifters replaced with gas strut versions. Seats are deep blue from a 1990 Honda Prelude.

Asking \$10,000. Contact member Jim Carlson [carlsonconsulting@comcast.net](mailto:carlsonconsulting@comcast.net) 408 802 0599 [Posted 09/14]
